BAYSTATE FINANCIAL

At **Baystate Financial**, our approach begins with listening. We take the time to understand each client's goals, concerns, and priorities, and provide personalized guidance to help them make informed financial decisions.

Baystate Financial is also our Poster Session sponsor!

BBJI
Boston Bone & Joint Institute

Boston Bone & Joint Institute (BBJI) physicians specialize in sports medicine, spine, shoulder, elbow, hand, hip, knee, ankle and foot surgery. The Total Joint Replacement Center at BBJI performs a high volume of shoulder, hip, knee and ankle replacements at the world-renowned New England Baptist Hospital. Additionally, the physicians at BBJI specialize in all types of workers' compensation injuries. Our wide range of specialization and experience sets us apart, but it is our dedication and passion for treating each patient with individualized care that defines us. We are extremely proud to offer life-enhancing care to help our patients return to the active lifestyle required for healthy living.

BOSTON HERNIA

Boston Hernia is a specialty surgical center focused exclusively on the diagnosis, treatment, repair, and recovery of inguinal and umbilical hernias. Our goal is to deliver superior clinical outcomes with an exceptional patient experience in ambulatory care. By focusing exclusively on hernia care, we have evolved beyond the traditional general surgery model to offer true world-class expertise.

Boston Orthopaedic & Spine's physicians are board-certified, fellowship-trained experts in numerous orthopedic subspecialties, from shoulders, elbows, hands and wrists, to spine, hips, knees, ankles and feet. Several of our physicians have been recognized as Castle Connolly Top Doctors 2026 and Boston Magazine Top Doctors 2026. Each of our physicians is highly experienced in his or her specialty and each leads a top-notch care team that offers comprehensive care for every stage of recovery, including exceptional physician assistants who guide patients through their treatment plan, and an experienced orthotist.

Delivering innovative, top-tier treatment options for post-operative recovery enabling patients to heal faster and safer. **COREVERiTY** provides access to innovative technologies like iceless cold therapy and Photobiomodulation (red light therapy) wraps that reduce the need for pain medication and help patients recover faster.

e3 Diagnostics is the only national, full service equipment distributor. We are dedicated to providing and servicing equipment for safety and compliance in hearing screening, vision screening, pulmonary function, breath alcohol and more

Enterprise Health is the only employee health record that combines occupational health and compliance, clinical care and employee engagement and is built on an ONC-ACB certified EHR platform. Large corporations, health systems and government agencies use the solution to streamline health surveillance, OSHA reporting, injuries/illnesses, immunizations, pre-employment exams and more.

HARVARD T.H. CHAN SCHOOL OF PUBLIC HEALTH
Education and Research Center

The primary objective of the National Institute for Occupational Safety and Health (NIOSH)-funded **Harvard Chan Education and Research Center (ERC)** is the training of leaders in occupational safety and health specialties: occupational (industrial) hygiene, occupational medicine, occupational epidemiology, and occupational injury prevention and control. Through a combination of practical and research-oriented coursework and field experiences, graduate students at the Harvard Chan ERC examine current problems relating to the workplace and learn methods and approaches for establishing healthy and safe work environments. Our goal is to prepare our students to be national and international leaders for improved understanding and prevention of work-related diseases through research and practice.

INDUSTRIAL HEARING TESTING
A Division of IHHA, Inc.

Industrial Hearing Testing offers mobile, on-site hearing conservation services including hearing testing and noise measurements.

Kathryn Costello

Kathryn Costello Photography offers personal brand photographs, including professional head shots.

The Massachusetts Association of Occupational Health Nurses MaAOHN is an organization committed to providing ongoing leadership, support and networking opportunities for all Massachusetts nurses engaged in occupational and environmental health...“Caring for the workers of Massachusetts for over 100 years.”

The Massachusetts Department of Public Health Occupational Health Surveillance Program (OHSP) promotes the health, safety, and well-being of all working people in Massachusetts by using occupational health data to guide and prioritize intervention activities to address workplace risks. OHSP is committed to integrating both work as a social determinant of health and occupational health into ongoing public health surveillance and practice.

For more than 40 years, **MediTrax** has provided a comprehensive, easy-to-use EMR for Employee Health recordkeeping at a price that's tens of thousands of dollars less than any comparable software solution. Users from Maine to California and from Florida to Alaska have selected MediTrax because it offers "everything you need, at a fraction of the cost!

Medlock Consulting was founded solely to address all physician executive needs. We have successfully completed assignments for Occupational Medicine Physicians, Executives, Medical Directors, and Leaders/Clinicians for Fortune Global 500 corporations, medical health systems, hospitals, clinics, and academia.

NECOEM is the New England regional component of ACOEM, a physician-led non-profit organization of occupational and environmental health professionals that strives to improve the health and safety of workers, workplaces, communities, and environments by providing clinical care, professional education, and encouragement of research to advance the specialty.

OEHN offers occupational health solutions by board certified physicians, nurses and other occupational health and safety professionals to deliver remote and onsite clinical leadership, care and service to insurers, employers and workers nationwide. Although partnering with all industries and workforces, we have a special interest and expertise in safety sensitive populations including healthcare workers, researchers and police and fire personnel and others.

Founded in 2000 by Nancy Clover, RN, COHN-S, **Occupational Health Connections** has grown into a trusted staffing and recruitment firm for the Occupational and Employee Health nursing field. The OHC team recruits and carefully matches Nurse Practitioners, Nurses, and other health professionals with employers across industries like healthcare, biotech, and energy. OHC offers temporary/contract, direct placement, and temp-to-hire staffing options, with a national reach.

OHD leads the industry as the only global provider of both OSHA- and ISO-recognized quantitative respirator fit testing technologies. With QuantiFit2™ and AeroFit®, we deliver not only precise results but also an intuitive, seamless user experience that redefines fit testing standards. Beyond fit testing, we provide a comprehensive suite of occupational health and safety products—including air sampling, noise monitoring, and advanced instrumentation—to empower safer workplaces

sam® (Sustained Acoustic Medicine) is an FDA-cleared, drug-free wearable ultrasound therapy - clinically proven in 30+ studies to reduce pain, accelerate healing, and restore function. Long-duration, low-intensity ultrasound designed to amplify the body's natural healing response, improve local circulation, and reduce the inflammatory source of pain.

STAT-Technologies delivers high-performance diagnostic and point-of-care solutions that empower laboratories and healthcare providers to operate with greater accuracy, efficiency, and reliability. We partner closely with leading manufacturers to bring innovative, clinically proven technologies to market, ensuring our customers have access to the tools they need to advance patient care. Our commitment to quality, collaboration, and continuous innovation drives everything we do.
